

COMMITTED TO EXCEPTIONAL ORAL CARE

Dentists are often the first line of defense against many serious conditions that start in the mouth.

And dentists who have earned Fellowship (FAGD) in the Academy of General Dentistry (AGD) go even further.

Becoming an AGD Fellow means a dentist has taken part in some of the most rigorous continuing dental education programs today. These dentists know about the most up-to-date technologies and procedures and care for your whole-body well-being.

AGD Fellows make a commitment to care that goes above and beyond—they are pulling for all of your oral health needs.

I'm an AGD Fellow.

Leaders Among the Dental Community

For more than 65 years, the Academy of General Dentistry has been a leading organization of general dentists. Now 40,000 members strong, the dedication of AGD members is good news for patients.

From the office of:

Matthew G. Lepowsky, DMD
26 East Granby Road
Granby, CT 06035
(860) 653-7596

MY EDUCATION DIDN'T STOP WITH MY DEGREE

*Because of my devotion to education and my patients,
I am proud to be your dentist. – AGD General Dentist*

ONLY
6%

of dentists have earned their
AGD Fellowship.*

I BECAME AN
AGD
FELLOW

because my commitment to
continuing education goes far
beyond my educational and
licensing requirements.

I HAVE
DEDICATED
MYSELF

to learning, growing and staying
current in my field so that I can
provide the best oral care to all
my patients and their families.
